HAND-ROASTED COFFEE

We are proud to serve Union's Hand-Roasted Revelation Blend coffee. Its beans are intense and luxurious with hints of dark chocolate, berries and sweet caramel - a union of directly traded coffees grown by farmers in Guatemala, Costa Rica, Rwanda and Sumatra.

We serve double shots as standard but please ask if you would like your coffee with just one shot. We also have de-caffeinated coffee and can make your drinks with skimmed, soya milk or almond milk if you prefer.
